## Blackboard Outage Planning Rules

The LMS Team has developed the current schedule based on the semester start and end dates as indicated on the academic calendar, the various program start and end dates as indicated by the program directors, and dates when faculty would need access to the system for administrative purposes as indicated by the Registrar.

	Use these dates to install patches/fixes to servers as necessary while classes are in session. Only use these dates if there is an emergency patch/fix that must be applied while classes are in session.
	Use these dates to install patches/fixes to software or server as necessary while classes are in session.
	These dates are available for system or Blackboard upgrades for extended outages such as Service Pack upgrades.
