

This MindEraZer 3000 will solve all your problems. Why? Because this MindEraZer 3000 will erase any bad memories you have! What this EraZer does is that it will shoot a beam which will file the memories. All you have to do is say which memories you want to erase. Only \$100! Go while you can!

We made this EraZer with the intention of the book because of Mr. Terupt when The character called Jeffery had a problem when his older brother died. His parents were very sad after there son's death. Jeffery thinks that his parents don't love him, so we made this so we could erase his bad memories.
